

# COMPUTER RADIOGRAPHY & DIGITAL RADIOGRAPHY (CR/DR)

## VERSATILE, QUALITY EXAMINATION

Amerapex offers industrial radiography examination of all materials and processes that require non-destructive testing to ensure compliance to codes, standards, regulations and company specifications. Computer Radiography meets or exceeds all current construction and fabrication codes, while providing enhanced results in a much faster, easy to handle format.

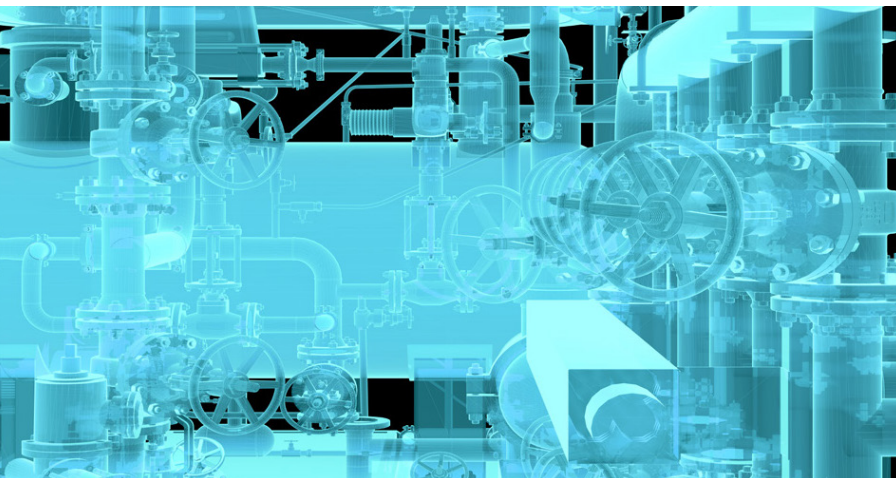

HIGHLY  
VERSATILE

TIME  
EFFICIENT

INCREASE  
RELIABILITY

## INSPECTION SERVICES OFFERED:

- Examination of Piping & Components:
  - Weld Quality Inspection
  - Piping
  - Structural Members
  - Parts
  - Valves
- Sulfidation Programs
- Profile Radiography for Corrosion Erosion
- Determination of Internal Fit/Position
- Concrete (location of internal structures)
- Many other applications

## KEY ADVANTAGES:

- Minimize time to acquire images by eliminating repeated exposures and film processing
- Decrease amount of exposures resulting in increased productivity and safer environment
- Produces consistent high-quality images
- Low cost of storage, retrieval and expansion
- Provides quick digital result resulting in time and cost savings
