

ADVANCED REMEDIATION TECHNOLOGY (ART)

TURNKEY ENVIRONMENTAL SOLUTIONS

Amerapex offers timely and effective remediation solutions for a variety of applications to ensure minimal downtime and a healthy environment. Amerapex is focused on health, safety and the quality of our services to help clients save time, as well as minimize costs and liabilities.

INCREASES SAFETY

IMPROVES EFFICIENCY

ENVIRONMENTALLY FRIENDLY

SOLUTIONS FOR:

- Soil
- Water
- Chlorides
- Metals
- TCE
- Drill Cuttings
- Hydrocarbons
- Many more

BENEFITS:

- Remediation of impacted materials at rates up to 300 cubic yards per hour
- Enables beneficial reuse of materials on/off site
- Project funding focused on remediation and site closure
- Reduces landfill/land farm liability issues
- No long-term land farm monitoring
- Zero waste generation from project
- 100% confidence all material has been re-mediated
- ART costs 30-60% less than landfill disposal

TREATABLE CONTAMINANTS:

- Crude Oil
- Condensate
- Diesel
- Gasoline
- Drill Cuttings
- Amines
- Lube Oils
- Chlorides
- Metals
- Oils
- TCE
- Many more
